YORK, WEDNESDAY, JUNE 12, 1895.

JUMPED FROM THE BIG BRIDGE

David Cohen Sought Death, He Says, but Wasn't Even Injured.

RESCUED BY A FERRY-BOAT

Then Transferred to a Tug and Turned Over to Bridge Policeman Cesh.

NINETEENTH TO TRY THE LEAP.

Went Down Like a Shot, Struck the Water Feet First, Swam a Little and Then Fleated.

David Cohen, twenty-three years old, of 156 Ludlow street, jumped from the Brooklyn Bridge at 10.35 o'clock this morning and was taken from the water

He was taken a prisoner to the Oak street station, where he said he was tired of life and had tried to commit suicide. Cohen is a slightly built young fellow and a tailor by trade. He started from the New York side of

the bridge on a truck shortly after 10 o'clock. While on the south driveway, about twenty-five feet from the oradie in the centre of the structure, he climbed down from the truck on which he was riding, and slid through an opening in the network.

called out, but Cohen paid no attention

He steadled himself a moment, and then let go. As he dropped through the air he drew his effows close to his

man the ferryboat deck hands turned the man over to the crew of the tug.

He was brought to shore and turned over to Officer James Cash, of the bridge police, who locked him up in the Oak street station.

Cohen was dressed in a dark suit and cutaway coat and did not seem to have suffered from his experience.

When asked by an "Evening World" reporter why he made the jump, Cohen replied:

"I could not make a living, and wanted to die."

The police believe the young man is demented.

Cohen was taken from the Oak street station to the Hudson Street Hospital, where a careful examination will be made to see if he is injured internally.

So far as the ambulance surgeon could discover, he had suffered no injuries from the jump except a chill from the cold water.

Cohen is the nineteenth man to jumpor to say he has jumped—from the bridge since May 19, 1885, when Robert E. Odium was killed in taking the big leap. Following is a complete list of the jumpera:

LEAPED FROM A FERRY-BOAT

Unknown Man Committed Suicid

have so many wheelmen been seen on the grounds.

To-day and to-morrow many prominent wheelmen will contest for prizes in different races. The race which will excite the most interest is the half mile heat open to class A riders in Queens County. It will be run to-morrow.

For trotting on the half mile track most of the well-known horses on Long Island are entered.

There was a good attendance to-day and the fair promises to be successful. Engineer John Berry, of the ferry oat Pierpont, of the Hamilton Ferry line, this morning reported to the po-lice of the Old Slip station that an unknown man jumped overboard from his boat on the 5.15 A. M. trip from New York to Brooklyn.
The suicide occurred when the boat

was opposite Governor's Island. The man appeared to be about twenty-five years old, five feet seven inches in height, had dark complexion, black hair and mustache and wore a black sack th, had dark complexion, black hair mustache and wore a black each body was not recovered. Lawyer Frank Moss Pefore the Tells His Story of the Bomb Police Board as Complainant

Houses in His Precinct.

Mr. McFadden Moved to Jersey City New Testimony to the Use of the on That Account.

The trial of Capt. Joseph B. Eakins,

There are five charges against Capt. Eakins, neglect of duty, violation of the rules of the department, conduct unbecoming an officer, conduct injurious to the peace and welfare of the city, and general inefficiency.

Mr. Moss started in by offering in

evidence the complaints made by the Parkhurst Society to Capt. Eakins last May regarding disorderly houses in his may regarding disorderly houses in his precinot, as well as the weekly report of the Captain to the Chief of Police, in which he said that no such houses were in existence.

These reports covered the period of Jan. 1, 186, to the present time. They showed that only three raids had been made by the police on disorderly house during that time.

"eNither of these places is mentione in our specifications," said Mr. Moss, in reply to Mr. Hess's objections.

The first witness, Stenographer James C. Pruden, of the Excise Board, produced applications for six licenses granted during the past six months. Mr. Moss said the society had complained to Capt. Eakins about these places, alleging they were disorderly, but Pruden testified that the Captain had never protested against the granting of these licenses, although he had appeared by subpoena before the Excise Board to give information about them.

What Capt, Eaking did tell the Excis-Board was that all the places mentioned were run respectably, except, perhaps, that of Joseph Gallagher, at 78 West Third street, and in that case Eakins mid he would compel the proprietor to keep an orderly place.

These licenses were granted to Joseph Wallace, III West Third street; Joseph Gallagher, 78 West Third street; Henry Maas, 56 University place; William Grau, 36 Sixth avenue; Henry Wolfers, 72 University place, and Eugene Louns ourg. 52 Bond street.

Benjamin B. McFadden, an envelope manufacture-, of 57 Sixth avenue, the next witness said he lived at 66 West April 1. He had to get out of he district on account of the number of disorderly houses in the street, and had
moved to Jersey City with his family.

He had particularly observed 60, 64 and
60 West Tenth street, and said they
were disorderly houses. He had been
frequently solicited by women in front
of looked.

"Did you lay your hand on Laidlaw?"
"No, sir!" emphatically answered Mr.
Sage.
Before Mr. Sage's direct examination
was completed, the case was adjourned
until to-morrow morning at 10.30 He struck the water feet first and many mediately, as he came to the surface, orderly houses in the street, and had mediately, as he came to the surface, orderly houses in the street, and had struck out. Then he turned on his back moved to Jersey City with his family.

He had particularly observed 60, 64 and had particularly 60, 64 and had particularly 60, 64 and had particularly 60, 64 and 6 The deck hands and passengers of the ferryboat Wyoming, of the Roosevelt street line, saw the man as he struck the water. The boat was ordered stopped of his own house. All three of these

CAPT. EAKINS'S TRIAL. SAGE ON THE STAND. TRIED

Throwing in the Laidlaw Suit.

Witnesses Testify to Disorderly Asked to Speak Louder, but Said He Had a Cold.

Plaintiff as a Shield.

When the Laidlaw-Sage suit was called who is charged with permitting disor-derly houses to flourish when he was in command of the Fifteenth Precinct, was trial as counsel for Laidiaw, and as-

the case.

The first witness examined to-day was Henry Lewis Language, a clerk in the employ of Bloodgood & Co., by whom Laidlaw was employed at the time of Norcross's visit to Sage's office. Language testified to Laidlaw's per-

fect physical condition previous to th bad," said the witness. "His memory was also affected. When told to do a certain thing and afterwards asked why he had not done as directed, Laidlaw would say he had forgotten all about it."

The witness said he was in the Mills Building when the explosion occurred. Q. Did it shake the Mills Building? A. It did. Dr. Daniel H. Smith, who attended Laidlaw, described the plaintiff's in juries and said he did not think his general health had been impaired.

Henry M. Moore, who was a clerk for Bloodgood & Co., testified that he saw Laidlaw and Sage in O'Connell's drug store after the accident. He corrobo-rated the story of the preceding wit-ness as to Laidlaw's condition when he returned to work in Bloodgood & Co.'s office.

he returned to work in Bloodgood & Co.'s office.

George C. Ballard, who is employed by Doubleday, Mitchell & Co., dealers in electrical supplies, testified that he saw Bage and Laidlaw in the drug store after the explosion. He heard Mr. Bage say that he was not badly hurt.

"I understood Mr. Bage to say that he was protected—he said something about being protected from the explosion, said the witness.

This is the first time Mr. Ballard has testified in the case.
On cross-examination he described Mr. Bage as "an elderly man, with a white face, thin hair and spare whiskers."

Col. James asked that the testimony of Ballard, relating to what Mr. Bage said about being protected from the explosion, be stricken from the record.
Judge Ingraham said a motion to that effect should have been made when the testimony was given, and denied the request.

request.

Col. James then asked that the case
be dismissed on a number of grounds.
This also was denied.
Rush Taggart addressed the jury on
behalf of Mr. Sage and the latter was
then placed on the stand. He began in

then placed on the stand. He began in a low voice.

"Speak louder," said Col. James.
"Excuse me, said Sage to the jury,
"I have a cold."

He retoid his story of the bomb-throwing by Norcross and the explosion which followed.

In About Nine Hours She Will Reach Southampton.

Her First Trip is Very Satisfactory the old Commissioners now in office. It to The Company.

> SOUTHAMPTON, June 12 .- The St. Louis passed the Scilly Islands at 3.45 o'clock this afternoon. She will be far behind the record of the Paris. It takes the Paris eight hours to reach here from the Scilly Islands. At noon to-day there was a crowd in

> royage across the Atlantic. There is much local interest in the vent, and the office of the steamship ine is deluged with telegrams. Many London reporters are here waiting for news of the new liner, and great inter-

est is manifested in her performance by the officials of other steamship lines is understood he will be retained. He to the time the new liner would make, out as time wore on the opinion that she would break a record began to lose

a o'clock to morrow morning. The steerage and second-class passengers' train leaves here for London at 6.45 A. M., class passengers to London will leave at

The St. Louis left her dock in this city at 11 o'clock Wednesday morning, June 5, passing Quarantine forty-seven minutes later. A dense fog prevailed at the time, and the steamer anchored inside Sandy Hook. utes later. A dense fog prevailed at the time, and the steamer anchored inside Sandy Hook.

Later in the day the fog lifted, and the St. Louis resumed her voyege, passing the Sandy Hook Lightship at 5.32 P. M. Her time, therefore, from the lightship to Scilly Islands is 6 days, 17 hours and 13 minutes, and, allowing nine hours for the run from Scilly to the Needles, her time will be 7 days, two hours and 13 minutes.

The time taken by the St. Louis of her maiden trip confirms the statement made by the officers of the American line, that no effort would be made to beat evisting records.

The present eastward Southampton record is held by the steamer Fuerst Hismarck, made in September, 25, and is 6 days 10 hours and 55 minutes. The St. Louis is therefore only about fifteen hours behind the best castward record. The Augusta Victoria made her first trip on May 23, 1898, in 7 days, 17 hours The St. Louis first trip is therefore 14 hours and 47 minutes shorter. The Columbia reached Southampton on Aug. 1, 1889, in 6 days, 29 hours and 49 minutes, of 5 hours and 22 minutes less time than the St. Louis.

The Normannia completed her first on June 5, 1890, in 7 days, 3 hours and 5 minutes, 52 min ites behind the first trip of the St. Louis. The Furst Bismarck on her first trip arrived at Southampton on May 21, 1881, 12 6 days, 14 hours and 25 minutes, making 1; hours and 48 minutes better time than the St. Louis.

At the office of the American line satisfaction is expressed regarding the time made by the St. Louis on this trip, Her average time being estimated at about 18 knoth per hour, against 15.69 knots

made by the St. Louis on this trip, average time being estimated at a 18 krots per hour, against 16.99 k made bythe steamer New York, 17.50 knots made by the Paris on a maiden trips.
